RENZ ALVIN NATIVIDAD

SOFTWARE DEVELOPER

PROFILE

Software Developer with one year of experience in designing and developing websites and web-based applications using clean, maintainable code to deliver user-friendly solutions. Skilled in attention to detail, problem-solving, and thriving under pressure to consistently meet client expectations and project deadlines.

EXPERIENCE

DIWA Learning System Inc.

4/F SEDCCO 1 Bldg. 120 Rada cor. Legazpi St, Legaspi Village,
1229 Makati City, Philippines | July 2023 - Present

Software Developer

- Collaborate with product and engineering team members within a Scrum/Agile environment to plan and estimate work at different levels.
- Document the project system and integration tests using MySQL Workbench, Laragon and phpMyAdmin.
- Analyze customer requirements and implement business logic using PHP Laravel, JavaScript and Vue.js
- Practice daily SCRUM for project development and tasks updates.
- Designed and developed an interactive website for Audio Tours, offering a diverse collection of self-guided tours across cities and municipalities. Leveraged JavaScript, HTML, and CSS to create an engaging user experience, ensuring seamless navigation and accessibility for a wide audience.
